## Runway Lighting Rehabilitation Project Update #3

### Temporary Relocation Threshold RNWY 16

**On Tuesday, September 29, 2009**, weather permitting demolition and installation of the taxiway lighting system will begin within the safety area of Runway 16 from Taxiway Alpha (North) to Taxiway Echo. **RNWX 16 threshold will be temporarily relocated 1670' south of the runway end leaving 4410' available for use.** ATCT may allow use of the full length for departures with a request made 30 minutes prior. The relocated threshold will be in place from 7:00 a.m. until dusk daily, and the full length of the runway will be available from dusk (approximately 7:00 p.m.) until 7:00 a.m.

The remaining construction will be sequenced to minimize the impact of aircraft operations.

We will keep you informed as the project progresses and we will post future updates on our website: <http://www.arlingtontx.gov/aviation/generalinformation.html>

Your patience and continued support of improvements to the airport is appreciated.
