Temporary Relocation Threshold RNWY 16

On Monday, November 16, 2009, at 7:00 a.m., weather permitting, construction is scheduled to resume on the taxiway lighting project. **RNWX 16 threshold will be temporarily relocated 1670' south of the runway end, leaving 4410' available for use.** The relocated threshold will be in place from 7:00 a.m. until dusk daily, and the full length of the runway will be available from dusk (approximately 7:00 p.m.) until 7:00 a.m. In the event of bad weather, construction will be cancelled.

Hangar Area Asphalt Repairs

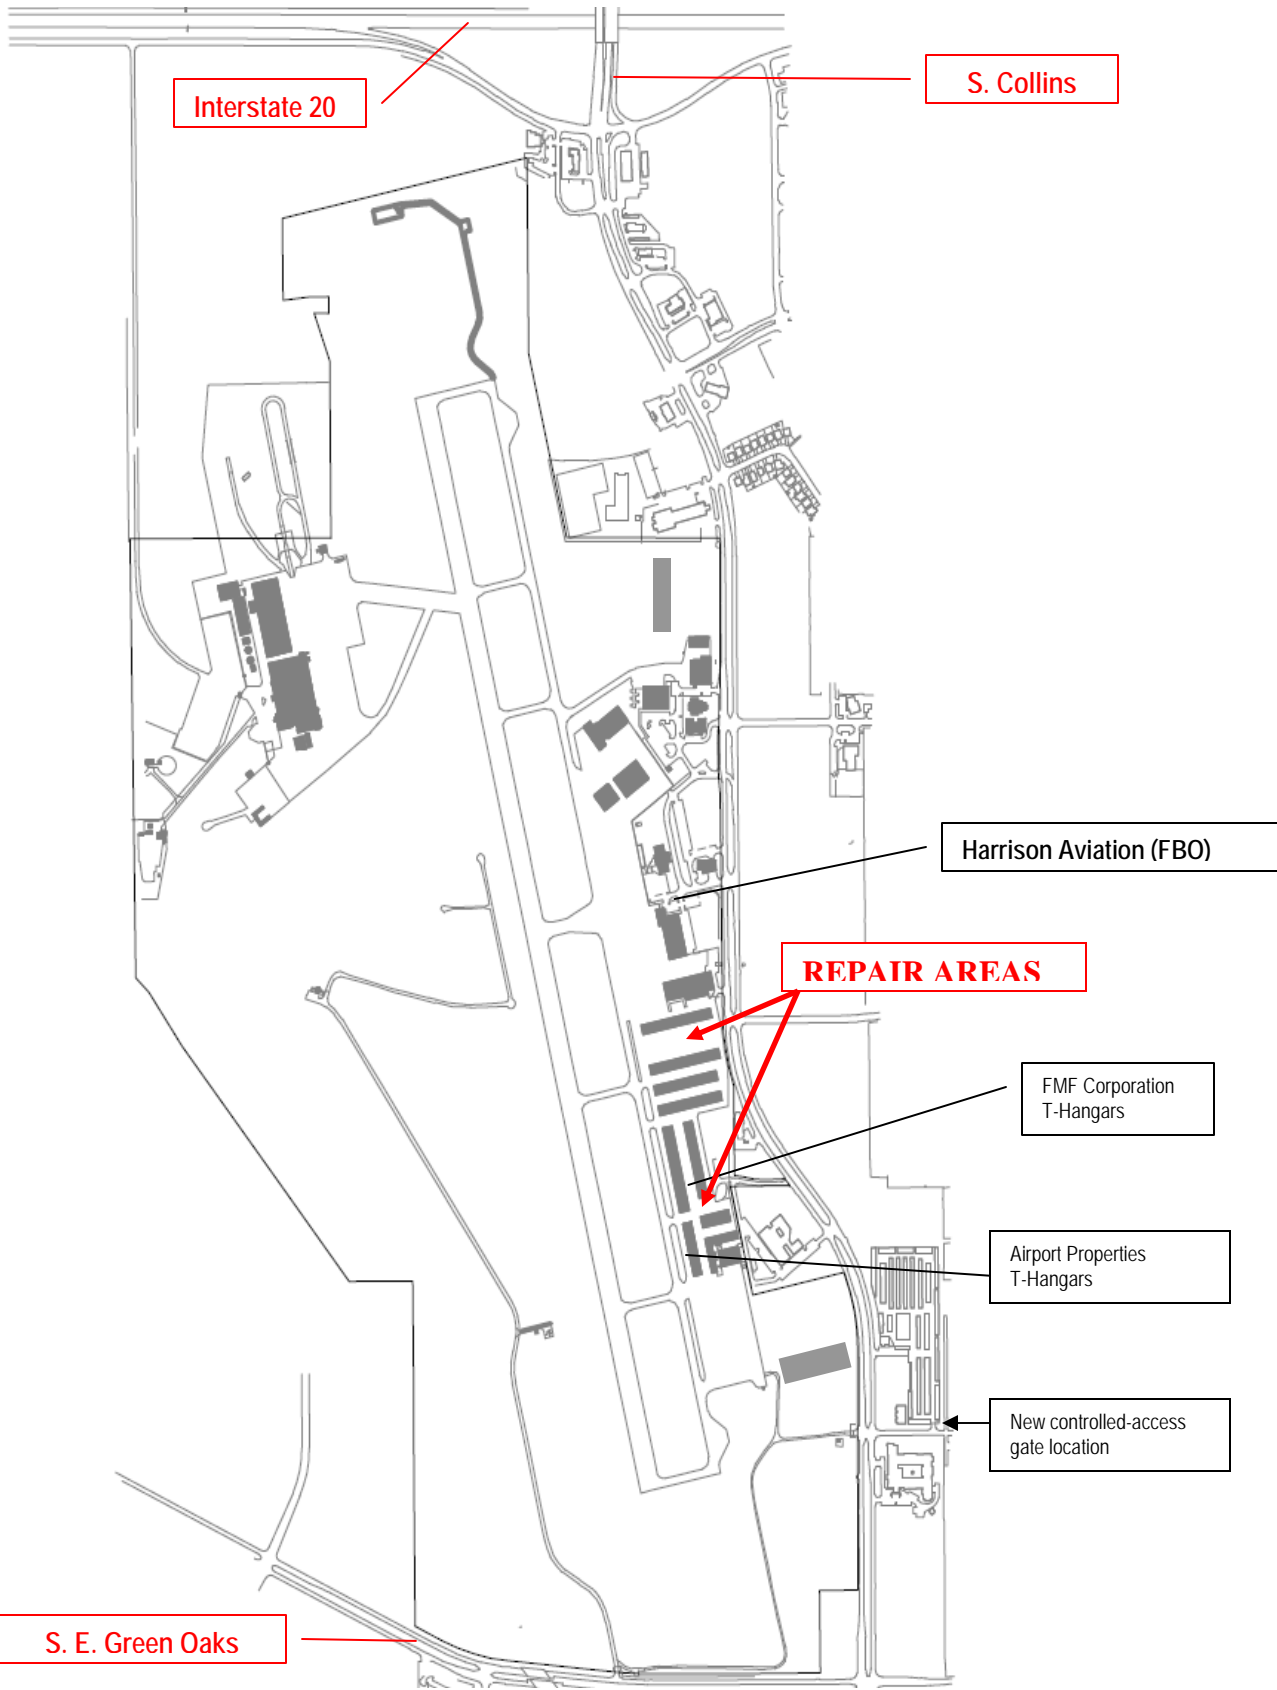

On Friday, November 20, 2009 from 8:00 a.m. until 5:00 p.m., crews will be working in the T-hangar area to repair several small sections of asphalt. Cones will redirect traffic and affected hangar tenants will be notified. A map is attached.

New T-hangars are Complete

The Airport has completed construction on the new T-hangars. A controlled-access gate is on order and will replace the existing southernmost construction gate (see attached map). The hangars are 42' wide with a 41' door opening, concrete floors, 20 amp power per hangar, and a sprinkler system. Lease rate is \$315 per month and some are still available.

We will keep you informed as the taxiway lighting project progresses and will post future updates on our website: <http://www.arlingtontx.gov/aviation>

Your patience and continued support of improvements to the airport is appreciated.
