

PrintPlace.com Ranks In 2009 "BEST PLACES TO WORK" In The Dallas Business Journal

Rapidly Growing Online Printer is Recognized for Outstanding Work Environment

Arlington, TX ([PRWEB](#)) September 22, 2009 -- PrintPlace.com, the fastest growing online printer in the United States, today announced that they were ranked #32 on the Dallas Business Journal's annual list of "Best Places to Work" 2009.

PrintPlace.com earned this prestigious distinction by being one of the top-scoring businesses in an employee survey administered by the Dallas Business Journal and the independent research firm, Quantum Market Research. PrintPlace was in the classification of mid-sized companies - or those with 100 to 499 local employees.

"It's the PrintPlace culture that sets us apart from other companies," said Shawn Petersen, CEO of PrintPlace.com. "Our employees are the heart and soul of our success. And being ranked as one of the "Best Places to Work" reinforces the fact that the environment we've worked so hard to create helps to foster success for everyone in every position."

The Dallas business Journal's "Best Places to Work" survey 2009 was handled by Kansas-based Quantum Market Research (QMR), an independent human resources company, who questioned the employees of participating companies about specific workplace issues. The top-scoring companies in four categories made up the 2009 list of "Best Places to Work" in the Dallas/Fort Worth area. The categories included: small businesses (1-100 employees), mid-sized businesses (101-500 employees), large businesses (more than 500 employees) and companies based outside the DFW metroplex. Only companies whose number of responses met QMR's specifications to guarantee a 95 percent confidence level (with a margin of error of plus/minus five percent) we included in the final rankings.

About PrintPlace

PrintPlace is a collaboration between print professionals, designers and developers committed to delivering the best online printing experience. Boasting the industry's most powerful and flexible quote tool, PrintPlace has engineered a unique workflow process that guarantees end-to-end color management. PrintPlace operates two printing facilities in Arlington, Texas and Los Angeles, California, with plans to add a third production facility on the east coast soon.
