Notes:

1. Major retailers do not include retailers from food and drug chains. Retail sales data includes data from Puerto Rico, U.S. Virgin Islands, and Washington DC.
2. One retailer provided CFL data by sale of multi-packs (e.g., 2-pack, 3-pack), rather than by individual CFLs. That retailer's national average distribution of multi-pack sales was applied to each store's multi-pack sales data to get a total for individual bulb sales.
