

## AMENDED PLAT

### TECHNICAL REQUIREMENTS, p. 1 of 2

The following elements must be shown. Each lot shall comply with the requirements specified in the Zoning Chapter for width, depth, and area. Please see the Subdivision Rules and Regulations for easements, rights-of-way, and public areas required. If Plat requires more than one sheet, number the sheets and provide match lines and a key map.

Staff Applicant

- location map, north arrow, written and graphic scale
- location and dimensions of all boundary lines (indicated by heaviest lines) and all lots
- a number or letter identifying each lot, block, and site
- title block in the lower right corner that includes:
  - type of plat
  - proposed name of subdivision, with section or phase if applicable
  - proposed lot and block numbers
  - reference to the original survey and previous plat including recording information
  - city, county, state
  - date of preparation
  - number of lots
- location, dimension, and purpose of all easements within or abutting the subdivision, and the recording information of all existing easements
- the following information on adjoining property, which should be shown with dotted or dashed lines:
  - if platted, subdivision name; lot, block, or tract numbers; recording information
  - if unplatted, current deed record ownership information
  - if subdivided without platting, both of the above
- A note describing the corner tie, and a tie to a Global Positioning System (GPS) monument accepted by the City. At least one corner of the subdivision shall be tied by course and distance to a corner of a platted lot or to an original corner of the original survey of which it is a part.
- metes and bounds description corresponding to the illustration
- gross acreage of the subdivision
- former lot numbers and lot lines shown in half tones ("ghosted")
- location of city limit lines if they traverse, form a part of the boundary, or are contiguous to the boundary of the subdivision
- certified acreage significant to three digits for each lot, tract, or site
- professional certification of the surveyor or engineer who prepared the plat
- owner's certification, including recording information of warranty deed
- the following note: "This property may be subject to charges related to impact fees, and the applicant should contact the City regarding any applicable fees due."
- if the plat includes previously platted property, the following certification: "This plat does not alter or remove deed restrictions, if any, on this property."
- the following certification: "This plat does not increase the number of lots in the previously recorded subdivision, nor attempt to alter or remove existing deed restrictions or covenants, if any, on this property."
