Policy
Committee
03.17.20**

Continued discussion from 02.25.20

Addressing Council's request in 2019 during the zoning case hearings for the tax credit projects to study the UDC standards related to the following two items.

- **Parking Requirements for Independent Senior Living**
- **Minimum Dwelling Unit Size for Multi-family**

Independent Senior Living Parking Requirements

02.25.20 Meeting Summary:

1. Should we change the age cutoff in the definition from 60 years to 55 years?
2. Instead of the parking requirement being “*1.0 per unit + 1.0 per 100 SF of common indoor area*”, we could change to “*1.0 per unit + X visitor spaces per XX units*”.

UDC Standards for 'Independent Senior Living' use

Definition of 'Independent Senior Living':

A facility containing dwelling units, accessory uses, and support services specifically designed for occupancy by persons 60 years of age or older. Such facilities may include accommodations for people who are fully ambulatory or who require no medical or personal assistance or supervision, as well as accommodations for people who require only limited or intermittent medical or personal assistance.

- 1. Should we change the age cutoff in the definition from 60 years to 55 years?**
 - There are two age cutoffs set by federal programs: 55+ and 62+.
 - To be inclusive of both age groups, we recommend changing the definition to "... by persons 55 years of age or older."

Other Cities' Comparison of Parking Requirements

CITY	PARKING REQUIREMENT
Grand Prairie	0.5 per unit + 1.0 space for 300 SF of office, administrative, and employee areas
Dallas	0.7 per unit
Plano, McKinney, Garland	1.0 per unit
Arlington	1.0 per unit + 1.0 per 100 SF of indoor common area
Mansfield	1.5 per unit
Fort Worth, Irving	Does not acknowledge 'Independent Senior Living' as a separate land use.

UDC Standards for 'Independent Senior Living' use

Common (indoor) Area Requirement:

- 100 SF per unit

Parking Requirement:

- One space per dwelling unit plus 1 per 100 SF of common area
- 50% of the required spaces shall be covered
- 20% of the required spaces shall be in enclosed garages

2. *Instead of the parking requirement being “1.0 per unit + 1.0 per 100 SF of common indoor area”, we could change to “1.0 per unit + X visitor spaces per XX units”.*

Parking Study from Mariposa Developers suggests 1.2 parking spaces per unit, which is equivalent to 1.0 per unit + 2 visitor spaces per 10 units.
