

Helen Drive

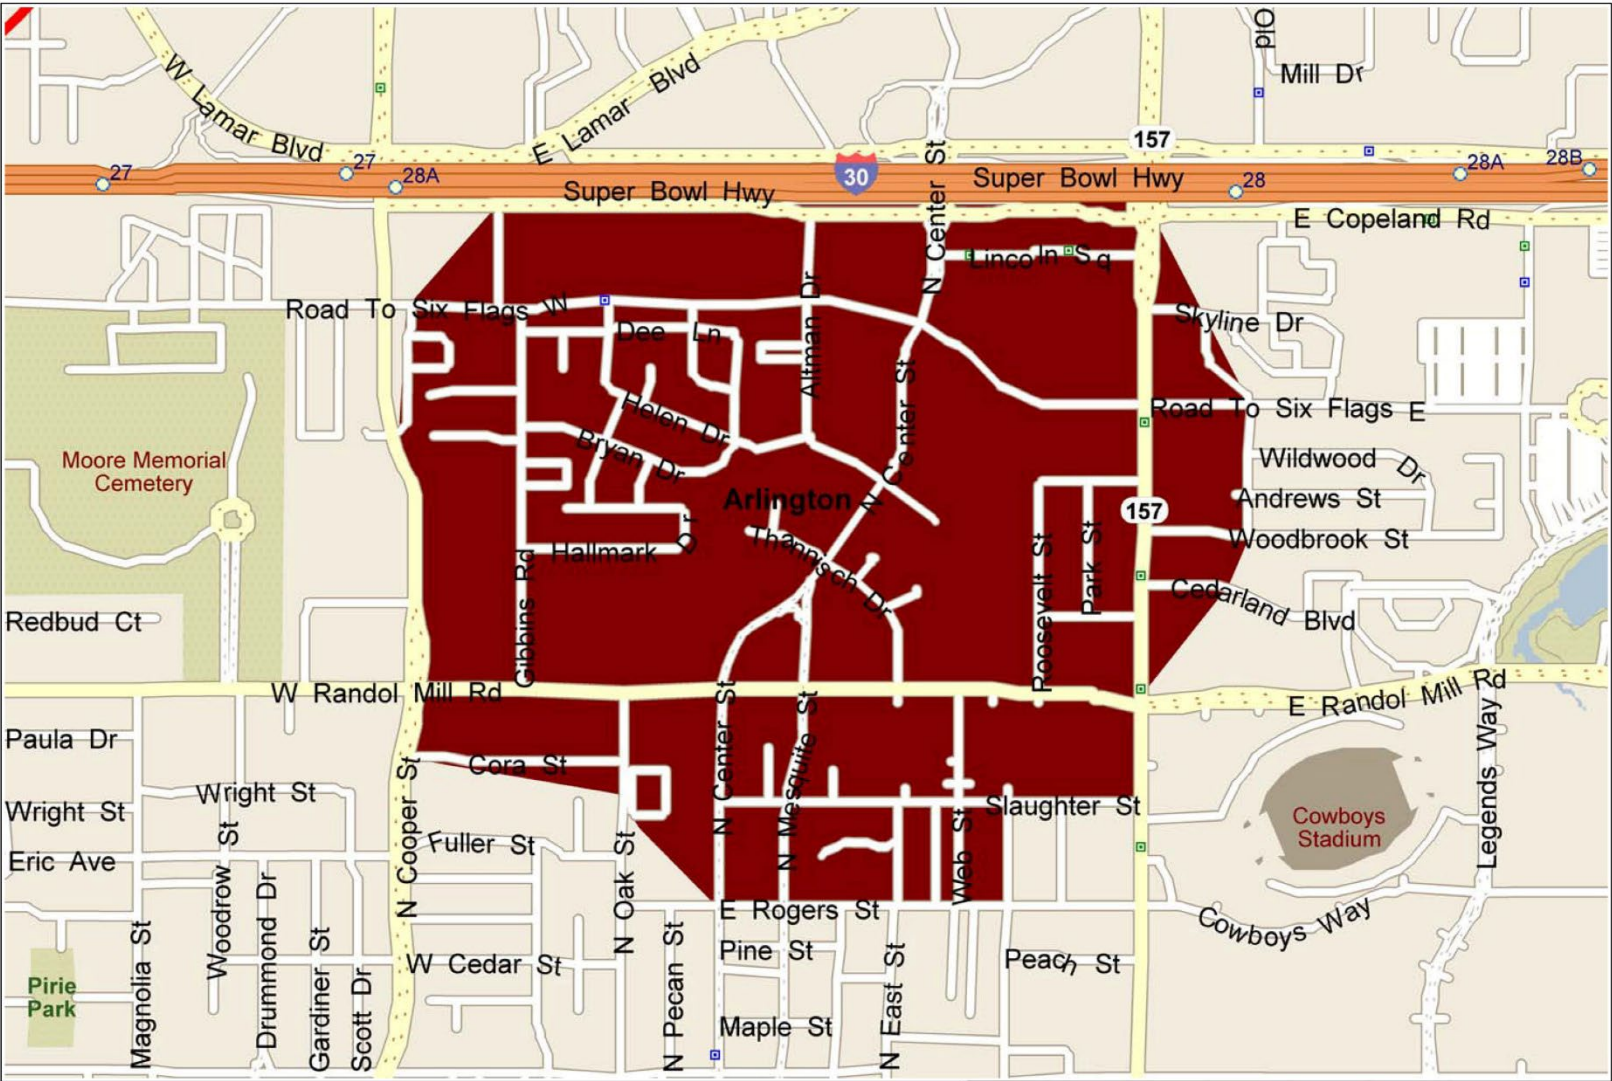

Figure 1: Helen Drive Ground Spraying Area Map

A map displaying targeted ground spraying area. The targeted area covers Helen Drive and its surrounding Area. Tracing the boundary in a clockwise direction, starting roughly from the northwest corner, the perimeter is defined by the following features. The boundary starts at Copland Road just east of Cooper Street and continues east until it reaches Center Street. The east boundary turns southeast to Road to Six Flags and New Haven Street. Then it runs south to Woodbrook Street. From there it continues southwest to Randall Mill Road and Collins Street. The boundary then runs South on Collins Street to Slaughter Street. The southern boundary then continues from the corner of Collins Street and Slaughter Street to Truman Street where it dips south to East Rogers Street then continues west toward North Center Street. From there it takes a northwesterly direction to the intersection of North Cooper Street and Cora Street. The west boundary begins at the corner of North Cooper Street and Cora Street and runs North to Road to Six Flags. From that intersection, it continues. North easterly to Copeland Rd. just east of Cooper Street. That closes the area.
