

Memorandum

TO: Honorable Mayor and City Council

FROM: Al Jones, Chief of Police 

SUBJECT: 2023 Racial Profiling Report

DATE: 2/27/2024

Per the Texas Code of Criminal Procedure Article 2.134, law enforcement agencies must report the preceding year's motor-vehicle stop data to their governing body prior to March 1st of each year.

Annually, since the Texas Racial Profiling Law was enacted in 2001 and to remain compliant with legislative mandates, the Arlington Police Department (APD) collects, analyzes, and reports motor-vehicle related contact data. As required each year, this data is reported to both the Texas Commission on Law Enforcement (TCOLE) and the Mayor and Council. The 2023 Racial Profiling Report is now presented to the Mayor and Council for their review and information.

The report was analyzed and compiled by professional consultant Dr. Alex del Carmen. Dr. del Carmen is a national leading authority on the issue of racial profiling, and one of the first scholars to research and publish on the topic. Currently, he is an Associate Dean and Professor of the School of Criminology, Criminal Justice, and Public Administration at Tarleton State University. He collaborates and consults with the police department across the nation, on a variety of issues. He is also an instructor at the FBI National Academy in Quantico, Virginia.

The 2023 Racial Profiling Report indicates that APD follows the requirements and standards of the Texas Racial Profiling Law. The report specifies the department's compliance with having policies defining the act of racial profiling, prohibiting officers from engaging in such acts, and that all racial profiling training requirements have been met. The report also indicates APD meets the requirement to educate and inform the public concerning the process to file a racial profiling complaint. The Arlington Police Department is in full compliance with the law and is committed to full disclosure of incidents of racial profiling.

The information contained in the Racial Profiling report relative to use of force resulting in bodily injury is limited in scope in accordance with the reporting requirements established by the Sandra Bland Act (S.B. 1849). In order to fulfill its commitment to transparency, the Arlington Police Department will present information on all use of force incidents for the calendar year 2023 in its annual use of force report update to City Council. In addition, the report will be available for citizens on the Arlington Police Department website.

LAW ENFORCEMENT EXPERTS

"Dr. Alex del Carmen's work on racial profiling exemplifies the very best of the Sandra Bland Act, named after my daughter. My daughter's pledge to fight for injustice is best represented in the high quality of Dr. del Carmen's reports which include, as required by law, the data analysis, audits, findings and recommendations. I commend the agencies that work with him as it is clear that they have embraced transparency and adherence to the law."

Arlington City Council
101 W. Abram St.
Arlington, TX 76010

Dear Distinguished Members of the City Council,

In 2001 the Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted the Texas Racial Profiling Law. During the last calendar year, the Arlington Police Department, in accordance with the law, has collected and reported traffic and motor vehicle related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements were implemented. Further, in 2017 the Sandra Bland Act was passed and signed into law (along with HB 3051, which introduced new racial and ethnic designations). The Sandra Bland Law currently requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis. All of these requirements have been met by the Arlington Police Department and are included in this report.

In this report, you will find three sections with information on motor vehicle-related contacts. In addition, when appropriate, documentation is included which demonstrates the manner in which the Arlington Police Department has complied with the Texas Racial Profiling Law. In section one, you will find the table of contents. Section two documents compliance by the Arlington Police Department relevant to the requirements established in the Texas Racial Profiling Law. That is, you will find documents relevant to the training of all police personnel on racial profiling prevention and the institutionalization of the compliment and complaint processes, as required by law.

Finally, section three contains statistical data relevant to contacts (as defined by the law) which were made during the course of motor vehicle stops that took place between 1/1/23 and 12/31/23. Further, this section contains the Tier 2 form, which is required to be submitted to this particular organization and the law enforcement agency's local governing authority by March 1 of each year. The data in this report has been analyzed and compared to information derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report.

In the last section of the report, you will find the original draft of the Texas Racial Profiling Law, SB1074, as well as the Sandra Bland Act (current law). Also in this section, a list of requirements relevant to the Racial Profiling Law, as established by TCOLE (Texas Commission on Law Enforcement), is included. The findings in this report support the Arlington Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

Public Education on Responding to Compliments and Complaints

Informing the Public on the Process of Filing a Compliment or Complaint with the Arlington Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Arlington Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by an Arlington Police Officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

All Arlington Police Officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Arlington Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Arlington has been included in this report.

It is important to recognize that the Chief of the Arlington Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Arlington Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

- A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism.
- B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole.
- C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers.
- D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop.
- E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources.

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
2. The driver and passengers are questioned about things that do not relate to the traffic violation
3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

A. Drug courier profile (adapted from a profile developed by the DEA)

1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
3. Vehicle is rented
4. Driver is a young male, 20-35
5. No visible luggage, even though driver is traveling
6. Driver was over-reckless or over-cautious in driving and responding to signals
7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior

1. Non-standard repainting (esp. on a new vehicle)
2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators

1. Not consistent with traffic flow
2. Driver is overly cautious, or driver/passengers repeatedly look at police car
3. Driver begins using a car- or cell-phone when signaled to stop
4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

State and Regional Comparisons

For context, Arlington’s data was compared to the statewide averages as well as the regional averages. The state and regional averages are displayed in the following tables.

•**Regional Baseline.** For reference, Arlington resides within TCOLE Region 8 (see map below). The region includes the following counties—Archer, Bosque, Clay, Comanche, Cooke, Denton, Eastland, Erath, Hood, Jack, Montague, Palo Pinto, Parker, Somervell, Stephens, Tarrant, Wichita, Wise, and Young. There are 270 law enforcement reporting agencies in Region 8. Of the nineteen counties listed, Tarrant County, which is where Arlington is located, is the most urban. Thus, when evaluating Arlington data in its regional context, it should be noted that this comparison does not take into effect the various demographic differences among the counties.

•**State Baseline.** In the reporting year, there were 2,712 law enforcement agencies that reported data to TCOLE.

Analysis and Interpretation of Data

In 2001, the Texas Legislature passed Senate Bill 1074, which eventually became the Texas Racial Profiling Law. This particular law came into effect on January 1, 2002 and required all police departments in Texas to collect traffic-related data and report this information to their local governing authority by March 1 of each year. This law remained in place until 2009, when it was modified to include the collection and reporting of all motor vehicle-related contacts in which a citation was issued or an arrest was made. Further, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of the individuals before detaining them. In addition, it became a requirement that agencies report motor vehicle-related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1 of each year. The purpose in collecting and disclosing this information is to determine if police officers in any particular municipality are engaging in the practice of racially profiling minority motorists.

One of the central requirements of the law is that police departments interpret motor vehicle-related data. Even though most researchers would likely agree that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is in fact very difficult to determine if individual police officers are engaging in racial profiling from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific “individual” racist behavior from aggregate-level “institutional” data on traffic or motor vehicle-related contacts.

As previously noted, in 2009 the Texas Legislature passed House Bill 3389, which modified the Racial Profiling Law by adding new requirements; this took effect on January 1, 2010. The changes included, but are not limited to, the re-definition of a contact to include motor vehicle-related contacts in which a citation was issued or an arrest was made. In addition, it required police officers to indicate if they knew the race or ethnicity of the individual before detaining them. The 2009 law also required adding "Middle Eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1 of each year.

In 2017, the Texas Legislators passed HB 3051 which removed the Middle Eastern data requirement while standardizing the racial and ethnic categories relevant to the individuals that came in contact with police. In addition, the Sandra Bland Act (SB 1849) was passed and became law. Thus, the most significant legislative mandate (Sandra Bland Act) in Texas history regarding data requirements on law enforcement contacts became law and took effect on January 1, 2018. The Sandra Bland Act not only currently requires the extensive collection of data relevant to police motor vehicle contacts, but it also mandates for the data to be analyzed while addressing the following:

1. A comparative analysis of the information compiled (under Article 2.133):

- a. Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;*
- b. Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;*
- c. Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches.*

2. Information related to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

As part of their effort to comply with The Texas Racial Profiling/Sandra Bland Law, the Arlington Police Department commissioned the analysis of its 2023 contact data. Hence, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2023 motor vehicle-related data. This particular analysis measured, as required by the law, the number and percentage of Whites, Blacks, Hispanics or Latinos, Asians and Pacific Islanders, Alaska Natives and American Indians (Middle Easterners and individuals belonging to the “other” category, as optional categories), who came in contact with police in the course of a motor vehicle-related contact and were either issued a ticket, citation, or warning or an arrest was made. Also included in this data were instances when a motor vehicle contact took place for an alleged violation of the law or ordinance. The Tier 2 data analysis included, but was not limited to, information relevant to the number and percentage of contacts by race/ethnicity, gender, reason for the stop, location of stop, searches while indicating the type of search performed, result of stop, basis of an arrest, and use of physical force resulting in bodily injury.

The analysis on the data performed in this report, was based on a comparison of the 2023 motor vehicle contact data with a specific baseline. When reading this particular analysis, one should consider that there is disagreement in the literature regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Arlington Police Department accepted our recommendation to rely, as a baseline measure, on the Fair Roads Standard. This particular baseline is established on data obtained through the U.S. Census Bureau (2020) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households.

It should be noted that the census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless whether they are among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only, thus excluding individuals who may have come in contact with the Arlington Police Department in 2023 but live outside city limits. In some jurisdictions the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

In 2002, some civil rights groups in Texas expressed their concern and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). In essence this constitutes a comparison that may result in ecological fallacy. Despite this risk, as noted earlier, the Arlington Police Department accepted the recommendation to utilize this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the Dallas Fort-Worth (DFW) Metroplex.

Tier 2 (2023) Motor Vehicle-Related Contact Analysis

When examining the enhanced and more detailed Tier 2 data collected in 2023, it was evident that most motor vehicle-related contacts were made with Blacks, followed by Hispanics. Of those who came in contact with police, most tickets or citations were issued to Blacks and Hispanics; this was followed by Whites.

While reviewing searches and arrests, the data showed that most searches took place among Blacks. When considering all searches, most were consented by Whites, while most custody arrests were of Blacks. Overall, most searches did not result in contraband; of those that produced contraband, most were of Blacks; this was followed by Hispanics. Of the searches that did not produce contraband, most were of Blacks. Most arrests were made of Blacks. Most of the arrests that originated from a violation of the penal code involved Blacks. Overall, the police department reported 20 instances where force was used that resulted in bodily injury.

Comparative Analysis

A comprehensive analysis of the motor vehicle contacts made in 2023 to the census data relevant to the number of “households” in DFW who indicated in the 2020 census that they had access to vehicles, produced interesting findings. Specifically, the percentage of Whites and American Indians who came in contact with police was the same or lower than the percentage of White and American Indian households in DFW that claimed in the last census to have access to vehicles. The opposite was true of Blacks, Hispanics, and Asians. That is, a higher percentage of Blacks, Hispanics, and Asians came in contact with police than the percentage of Black, Hispanic, and Asian households in DFW that claimed in the last census to have access to vehicles. It should be noted that the percentage difference among Asian contacts with households is of less than 3%; thus, deemed by some as statistically insignificant.

The comprehensive analysis of the searches resulting in contraband shows that the most significant contraband hit rate is of American Indians. This was followed by Blacks and Hispanics. This means that among all searches performed in 2023, the most significant percentage of these that resulted in contraband was among American Indians. The lowest contraband hit rate was among Whites and Asians.

A comparison of the contacts made by APD with the state and regional baselines, showed similar results to the previous comparison, with a few exceptions. That is, the percentage of contacts with Whites and American Indians who came in contact with police was the same or lower than the percentage of White and American Indian contacts made by other law enforcement agencies across the state. The opposite was true of Blacks and Asians. That is, APD showed a higher percentage of Black and Asian contacts than the percentage of Black and Asian contacts made by other agencies across the state. This is consistent with the findings introduced previously, related to contacts with households with access to vehicles. The exception was with Hispanic contacts. That is, the percentage of Hispanic contacts made by APD, when compared to the state baseline, showed that the percentage of Hispanics stopped by APD was lower than the state baseline.

When compared to the regional baseline, the APD percentage of contacts relative to Whites was lower than the regional percentage of White contacts. However, with respect to Blacks, Hispanics, Asians and American Indians, the opposite was true. This is consistent for the most part, with the comparative analysis made earlier with households that have access to vehicles.

Regarding searches, the APD data shows that there was the same or a smaller percentage of searches, when compared to state searches, relative to Whites, Hispanics and American Indians. The opposite was true of Blacks and Asians. Similar findings were attained when comparing the APD data to the regional search data, with the exception of Hispanics. That is, the APD percentage of Hispanic searches was greater than the percentage of Hispanic searches made by other law enforcement agencies in the region.

When comparing the percentage of contraband found as a result of a search, the APD data shows that APD found the same or a larger volume of contraband as a result of searches on Blacks, Asians and American Indians, when compared to the state baseline. The opposite was true of Whites and Hispanics. That is, APD data showed a smaller percentage of contraband found among Whites and Hispanics. A similar trend was found when comparing the percentage of contraband found by APD with the state baseline, with the exception of Hispanics. That is a larger percentage of Hispanic contraband was found by APD when compared to the state baseline.

Summary of Findings

As referenced earlier, the most recent Texas Racial Profiling Law requires that police departments perform data audits in order to validate the data being reported. Consistent with this requirement, the Arlington Police Department has engaged del Carmen Consulting, LLC in order to perform these audits in a manner consistent with normative statistical practices. As shown in Table 6, the audit performed reveals that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement.

While considering the findings produced as a result of this analysis, it is recommended that the Arlington Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected), which may prove to be useful when determining the nature of the contacts police officers are making with all individuals.

As part of this effort, the Arlington Police Department should continue to:

- 1) Perform an independent analysis on contact and search data in the upcoming year.
- 2) Commission data audits in 2024 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The comprehensive data analysis performed serves as evidence that the Arlington Police Department has complied with the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of Tier 2 data, and ensures that the practice of racial profiling will not be tolerated.

TCOLE GUIDELINES

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of **what** must be accomplished by an agency but allows wide latitude in determining **how** the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”

The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person’s race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer’s best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, “the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.”

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide an analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops

including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary

None

Standard 6

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling

S.B. No. 1074 - An Act relating to the prevention of racial profiling by certain peace officers.
BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

Art. 2.131. RACIAL PROFILING PROHIBITED. A peace officer may not engage in racial profiling.

Art. 2.132. LAW ENFORCEMENT POLICY ON RACIAL PROFILING. (a) In this article:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties.

(2) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to traffic stops in which a citation is issued and to arrests resulting from those traffic stops, including information relating to:

(A) the race or ethnicity of the individual detained; and

(B) whether a search was conducted and, if so, whether the person detained consented to the search; and

(7) require the agency to submit to the governing body of each county or municipality served by the agency an annual report of the information collected under Subdivision (6) if the agency is an agency of a county, municipality, or other political subdivision of the state.

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the

policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(f) On the commencement of an investigation by a law enforcement agency of a complaint described by Subsection (b)(3) in which a video or audio recording of the occurrence on which the complaint is based was made, the agency shall promptly provide a copy of the recording to the peace officer who is the subject of the complaint on written request by the officer.

Art. 2.133. REPORTS REQUIRED FOR TRAFFIC AND PEDESTRIAN STOPS. (a) In this article:

(1) "Race or ethnicity" has the meaning assigned by Article 2.132(a).

(2) "Pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic or who stops a pedestrian for any suspected offense shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of each person detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the traffic law or ordinance alleged to have been violated or the suspected offense;

(3) whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

(4) whether any contraband was discovered in the course of the search and the type of contraband discovered;

(5) whether probable cause to search existed and the facts supporting the existence of that probable cause;

(6) whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;

(7) the street address or approximate location of the stop; and

(8) whether the officer issued a warning or a citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Art. 2.134. COMPILATION AND ANALYSIS OF INFORMATION COLLECTED.

(a) In this article, "pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(9) whether the officer used physical force that resulted in bodily injury, as that term is defined by Section 1.07, Penal Code, during the stop.

**ARLINGTON
POLICE DEPARTMENT
RACIAL PROFILING POLICY**

414.00 RACIAL/BIAS-BASED PROFILING

414.01 POLICY, PURPOSE, AND DEFINITIONS

(Effective 12-31-01) (Revised 08-21-08) (Revised 09-01-17) (Revised 05-28-21) (A 1.2.9)

- A. **Philosophy.** Racial/Bias-Based Profiling continues to be a challenge in the United States despite constitutional guarantees of equal treatment under the law. Such profiling undermines the public safety by straining police-community trust, which results in a lack of confidence in the police by the communities they serve. The installation of strong, unambiguous laws which prohibit unfair treatment by law enforcement can improve police-community relations, instill confidence, and re-build trust between officers and the public.
- B. **Purpose.** The purpose of the Racial/Bias-Based Profiling policy is to reaffirm Arlington Police Department's commitment to unbiased policing in all encounters between officers and members of the public. These policies and procedures serve to ensure public confidence and mutual trust through service provided in a fair and equitable manner.
- C. **Policy**
1. It is the policy of the Arlington Police Department to police proactively; and rigorously enforce state and federal laws in a responsible and professional manner, without regard for race, gender or any other identifying characteristic.
 2. This Racial/Bias-Based Profiling Policy is adopted in compliance with the requirements of existing Texas Racial Profiling laws, which prohibit peace officers from engaging in racial/bias-based profiling.
 3. It is the policy of the Arlington Police Department to ensure full compliance with the non-discrimination requirements of Title VI of the Civil Rights Act of 1964 and related non-discrimination authorities, including those identified in the Federal Motor Carrier Safety Administration's (FMCSA) Title VI Program Assurance. (See Traffic SOP for additional information.)
- D. **Definitions:**

Racial/Bias-Based Profiling: Is defined as a law enforcement-initiated action based on, but not limited to, an individual's race, ethnicity, national origin, gender, sexual orientation, gender identity, religion, economic status, age, cultural group, or any other identifiable group; rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity. Racial/bias-based profiling pertains to persons who are viewed as suspects or potential suspects of criminal behavior. The term is not relevant as it pertains to witnesses, complainants, persons needing assistance, or other contacts.

(A 1.2.9)

Race or Ethnicity: For purposes of this policy: Alaska or American Indian; Asian; Black; Latino or Hispanic; Middle Eastern; Pacific Islander or Hawaiian; and White.

An Act Constituting Racial/Bias-Based Profiling: Acts initiating law enforcement action, such as a motor vehicle stop, a subject stop, a search, issuance of a citation, asset forfeiture or an arrest based solely upon an individual's race, ethnicity, national origin, gender, sexual orientation, gender identity, religion, economic status, age, cultural group, or any other identifiable groups; or on the basis of racial or ethnic stereotypes, rather than upon the

414.00 RACIAL/BIAS-BASED PROFILING

individual's behavior, information identifying the individual as having possibly engaged in criminal activity, or other lawful reasons for the law enforcement action.

Subject Stop: An interaction between a peace officer and an individual who is being stopped for the purposes of an investigation, in which the individual is not under arrest.

Motor Vehicle Stop: An occasion in which a peace officer stops a motor vehicle for an alleged violation of a law or ordinance.

Asset Forfeiture or Asset Seizure: A form of confiscation of assets authorized by the state. It typically applies to the alleged proceeds or instruments of crime. This applies, but is not limited, to terrorist activities, drug related crimes, and other criminal and even civil offenses.

E. **Prohibition** (Renumbered 07-27-17) (A 1.2.9a)

1. Officers are strictly prohibited from engaging in racial/bias-based profiling in driver contacts, field/pedestrian contacts, and in asset seizure and forfeiture efforts.
2. The prohibition against racial/bias-based profiling does not preclude the use of race, ethnicity, or other factors in a detention decision by a peace officer.
3. Race, ethnicity, and other factors may be legitimate indicators in such a decision when used as part of a description of a suspect or witness for whom a peace officer is searching.

8. Internal Affairs shall seek to determine if the officer who is subject of the complaint has engaged in a pattern of racial/bias-based profiling, including multiple acts of profiling behavior for which there is no reasonable, credible explanation based on established police and law enforcement procedures. A single act constituting racial/bias-based profiling may not be considered a pattern of racial/bias-based profiling.
9. Compliments received regarding motor vehicle and subject stops and asset forfeiture activities related to racial/bias-based profiling shall be routed through the officer's chain of command.

414.03 DATA COLLECTION, COMPILATION, AND REPORTING REQUIREMENTS

(Revised 04-09-10) (Revised 12-08-14) (Revised 03-01-16) (Renumbered 07-27-17) (Revised 09-01-17) (Revised 08-09-21)
(A 1.2.9)

A. Collection and Reporting Guidelines

1. For each motor vehicle and subject stop not related to a dispatched call for service, the primary officer involved in the stop shall collect information in compliance with the State of Texas Racial Profiling laws and this policy.
2. For each asset forfeiture event, information on the person in control of the property shall be collected in compliance with this policy.
3. The motor vehicle stop information collected shall be compiled into an annual report covering the period January 1 through December 31 of each year, and shall be submitted to the Mayor and City Council no later than March 1 of the following year.
4. The subject stop information collected shall be compiled into an annual report covering the period of January 1 through December 31 of each year, and shall be submitted to the Police Chief no later than March 1 of the following year.
5. The Crime Analysis Unit is responsible for ensuring the motor vehicle and subject stop information is reviewed and analyzed on an annual basis, pursuant to this policy. The review shall include a review of the data collected and citizen concerns to determine if the policies and practices regarding motor vehicle or subject stops can be improved. (A 1.2.9d)
6. The annual reports shall not include identifying information about any individual stopped or arrested, and shall not include identifying information about any peace officer involved in a stop, arrest or asset forfeiture.

B. Motor Vehicle and Subject Stop Collection, Compilation, and Reporting Requirements

1. Each officer shall make the following report for each motor vehicle stop and for every subject stop to which an officer is not dispatched:
 - a physical description of the driver involved in a motor vehicle stop and a physical description of each person involved in a subject stop, including gender and race; and whether the officer did or did not know the person's race prior to contact;
 - reason for the stop;
 - final outcome of the stop – citation, arrest, or warning; resident status;
 - if a search was conducted, what type of search;
 - if contraband was seized, what type of contraband; and
 - if force was used, was there resulting injury to the subject.
2. **Motor Vehicle and Subject Stop Procedure**
 - a. Officers must checkout on every motor vehicle and subject stop, via radio communication with dispatch, unless authorized to mark out via MDC as specified in G.O. 302.05 C.
 - b. A call for service shall be initiated in CAD for each motor vehicle and subject stop. Initiating the call requires no additional action by the officer. However, the call must be cleared with the appropriate disposition code at the conclusion of the stop.

414.00 RACIAL/BIAS-BASED PROFILING

- c. Officers must clear the call on the MDC; not through dispatch. Only officers working without a properly operating MDC may clear motor vehicle and subject stops through dispatch over the radio.
- d. Every motor vehicle or subject stop must be cleared with an appropriate disposition sequence. The clearance code sequence captures data in the following categories of information:
 - race
 - gender;
 - reason for stop;
 - final outcome;
 - resident status;
 - whether a search was conducted;
 - search type, if applicable;
 - contraband description, if applicable; and
 - use of force.
 - vehicle tow status
- e. For motor vehicle stops, the officer is required to collect the information only on the driver; passenger information is not required.
- f. For subject stops, the officer must collect the information on each subject stopped. For example, if 3 individuals are questioned on a subject stop, then there should be three calls opened and closed using the clearance code sequence.
- g. Officers shall use their observations skills, training and experience to identify the characteristics of race and gender. Officers are prohibited from asking subjects to identify their own race and gender.
- h. The codes are listed in G.O. 414.00 Appendix A.
- i. If a motor vehicle or subject stop is opened in error, the officer shall close the call with Disposition 7 or use the “Cancel Call” button. The officer is not authorized to change a traffic stop/subject stop to another call type. The officer is not authorized to change any other call type to a traffic stop/subject stop.
- j. The appropriate disposition code must be entered into the CAD clearance tab. Officers working without an MDC shall notify dispatch of the disposition by radio in the exact sequence as listed in G.O. 414.00 Appendix A. .
- k. It is important that the clearance of the call be recorded separately from any other police activity:
 - 1) If the motor vehicle or subject stop results in any additional police action (such as an arrest), an additional separate call must be initiated and cleared independent of the motor vehicle or subject stop call. No separate call will be initiated for vehicle tows related to uninsured motorists (INSTOW). The tow status for such incidents shall be captured as indicated in GO 414.00 Appendix A. (Revised 08-09-21)
 - 2) Whenever a second call is initiated, the officer must connect the two incidents by either listing the motor vehicle or subject stop call number in the “MI” comment area of the second call, or asking dispatch to cross-reference the calls.
 - 3) The officer should clear the motor vehicle or subject stop call as soon as reasonably possible in order for all new information to be connected to the correct new call.

414.00 RACIAL/BIAS-BASED PROFILING

1. **Special Circumstances**

- 1) A vehicle overtaking or pursuit in which the vehicle is not ultimately stopped does not qualify as a “motor vehicle stop” for the purposes of this policy.
- 2) An officer who attempts to stop a motor vehicle for a traffic violation and the vehicle evades, call-type TSTOP should not be used. The officer shall cut a call-type that best describes the offense related to the fleeing vehicle. If a TSTOP call is cut, the officer may cancel that call and open the correct call as described above.
- 3) An officer stopping a suspect vehicle or individual related to an open (dispatched) call shall carry that stop as part of the open call, and not as a motor vehicle or subject stop.
- 4) An officer who stops a subject who is a witness or is related to an offense shall open a call based on that offense; this policy shall not apply.

3. **Annual Report in Compliance with State Law** (A 1.2.9c)

- a. The annual report shall include a comparative analysis of the information compiled by each officer under 414.03 B.1 to:
 - evaluate and compare the number of motor vehicle stops of drivers who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;
 - examine the disposition of motor vehicle stops; and
 - evaluate and compare the number of searches resulting from motor vehicle stops and whether contraband or other evidence was discovered in the course of those searches.
- b. The annual report shall include information relating to each complaint filed with the City alleging that a peace officer employed by the City had engaged in racial / bias-based profiling.

4. **Subject Stop Annual Report**

- a. The subject stop annual report shall include a comparative analysis of the information compiled by each officer under 414.03 B.1.
- b. The purpose of the subject stop analysis is identical to the purpose of motor vehicle stop analysis described in 414.03 B.4.
